Art Unit: 1641

Reasons for Allowance

1. The following is an examiner's statement of reasons for allowance:

The instant invention directs to a method of using tyramide enzymatic amplification to measure intracellular analyte in a test sample. No prior art teaches or fairly suggests use of a tyramide in a high serum concentration, e.g. at least equal to the presence of 10% fetal bovine serum, together with an isotype/subtype negative control, to increase the detection signal at least 10-fold greater than conventional standard flow cytometry. The closest prior art is the reference of Karkmann et al. (J Immu. Methods 1999 230: 113). However, Karkmann et al. use a very low serum, i.e. 0.5 %, and no specific isotype/subtype negative control. Therefore, the instant invention provides an unexpected result, i.e. more than 10-fold sensitivity with respect to the prior art teachings.

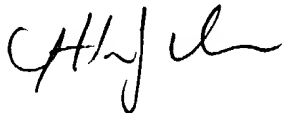

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jacob Cheu whose telephone number is 571-282-0814. The examiner can normally be reached on 9:00-5:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Long Le can be reached on 571-272-0823. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
